

Shy Bladder Log

Date: _____ Collector: _____

Donor Name: _____

Time of initial collection: _____ - Shy bladder time interval **begins**.

Initial time plus 3 hours: _____ - Shy bladder time interval **ends**.

Instruct the donor to **not drink any fluids except the water provided (NO MORE THAN 40 OUNCES)** according to this log. A clinic employee must monitor the donor during the three-hour period or until an appropriate specimen is provided, whichever comes first. All fluids provided and collection attempts made **after the initial attempt** must be documented. Be prepared to stay after-hours if the three-hour interval extends beyond your shift.

Note: A refusal to drink fluids is not a refusal to test. Make a remark and proceed with the collection.

CUP NO. (10 oz.)	TIME PROVIDED	INITIALS	ATTEMPT NO.	TIME MADE	RESULT	INITIALS
1			1			
2			2			
3			3			
4			4			
-----	-----	-----	5			
-----	-----	-----	6			

REMARKS: _____
